

Clean, Safe,
Cost-Effective Water

Life Depends on Water
Health Depends on
Safe Water

We are committed to
safe water
pure and simple

Using patented technology that mimics water filtration in the natural world, the **HydrAid® BioSand Water Filter** is based on the proven centuries old slow sand filtration technology. Developed by Dr. David Manz and researched and tested by water expert and advisor to the World Health Organization, Mark Sobsey. Biosand technology is the number one sustainable technology for producing safe affordable household water.

A partnership of Cascade Engineering & The Windquest Group

Get Started

Safe water transforms lives

personally and economically for children, families and entire communities from disease and malnutrition to hope and success.

More children die from water-borne diseases than from AIDS, Malaria and Measles combined. One child dies every 15 seconds.

50% of the world's hospital beds are used at any one time by people with water related illnesses.

www.hydraid.org

Purchase a **Hydraid® BioSand Water Filter Demo** unit for fundraising online for \$58 including shipping at www.chooserenewables.com.

Donate

Life depends on water. Health depends on safe water. Hydraid® BioSand Water Filter is your opportunity to be part of a sustainable solution to a global health epidemic.

Is your group interested in financially supporting projects in the **Dominican Republic, Haiti, Honduras, Tanzania or Uganda** through designated donations? Look for projects to support at www.hydraid.org/act

Get started now by donating a Hydraid® BioSand Water Filter today at www.hydraid.org/act/donate.html. Provide a family with enough safe water for drinking, cooking and bathing for 10 years.

Is your group interested in visiting a village project? **Contact the Triple Quest Hydraid® BioSand Water Filter** team at 616.254.4114 or deb.walsh@triplequest.com

Contact the Triple Quest Hydraid® BioSand Water Filter team at 616.254.4114

Go to www.hydraid.org/resources to download presentation materials.

Start a Project

Is your group interested in starting your own project where you will travel, build, install and train residents as facilitators of the Hydraid® BioSand Water Filter?

Contact the Triple Quest Hydraid® BioSand Water Filter team at 616.254.4114 or deb.walsh@triplequest.com to purchase filters.

Pallets of 15 filters are great to include on summer project trips. Order in the month of May and you will receive a 10% discount on complete filters.

One filter complete with filtration media is \$70 plus shipping and provides safe water for an entire family. One pallet of 15 complete filters is \$1,000 plus shipping and provides safe water for up to 150 people.

Go to www.hydraid.org/resources to download presentation materials, tools to help with fundraising and more?
