

**International Aid
NOTICE
AND
LIMITED WARRANTY
(International)**

NOTICE

Biosand water filter technology was invented by Dr. David Manz in 1992. The filters are in use today in some 70 countries around the world. In July 2006 Dr. Manz licensed International Aid to manufacture and distribute a plastic version of the filter – the HydrAid™ filter. The use of biosand water filter technology has shown to reduce parasites and bacteria and to statistically reduce the incidence of diarrhea in studies completed by the University of North Carolina in the Dominican Republic and Cambodia. Biosand water filter technology is appropriate for use when installed and used consistent with instructions. BioSand water filters are not approved by the US Environmental Protection Agency or similar international agencies for drinking water.

LIMITED WARRANTY

International Aid, Inc. a non profit company (the "Company") warrants to you, the first international (outside the U.S.) purchaser of the HydrAid™ filter that International Aid will repair, replace or provide a limited credit in the event of defects in materials or workmanship it finds to its satisfaction to occur and which are reported to International Aid within the warranty period, subject to the terms, conditions and exclusions set forth below. Your acceptance of delivery of the warranted HydrAid™ filter constitutes your acceptance of the terms of this limited warranty.

There are no warranties other than those contained herein, unless otherwise required under applicable law. For HydrAid™ filters sold in EC member states, the Owner has legal rights under applicable national legislation and the Consumers Protective Directive 1999/44/EC of the European Parliament and of the Council of 25 May 1999 governing the sale of consumer goods, and those rights are not affected by this Limited Warranty; any claim that the HydrAid™ filter was nonconforming at the time of delivery must be made within thirty days (30) from the date of delivery, or the minimum period required by applicable law (if more than thirty (30) days) (the minimum applicable period is referred to as the "warranty period"). This limited warranty is not transferable.

The Company will repair, replace or provide a limited credit, at its sole discretion, as the sole and exclusive remedy in the event of defects in materials or workmanship if such claim is made in writing, accompanied by a photograph or other information demonstrating any claimed defect, to International Aid within the warranty period. The warranty period runs from the date of delivery to the purchaser.

NOTE: The Company will respond to warranty claims within 90 days of its receipt of any claim. Under no circumstances will the Company's liability exceed a maximum of a \$50 credit per filter for any claim.

This Warranty Does Not Cover any breakage of the filter caused by improper installation procedures or that alleged defects that first occur after installation.

This limited warranty is the sole and exclusive express warranty from the Company. To the fullest extent allowed by law, **all statutory warranties and guarantees, and all implied warranties or guarantees (INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE) are excluded and disclaimed and excluded.** If any statutory or implied warranty of merchantable quality or fitness is required under local law, all remedies shall be subject to the terms and conditions set forth herein to the fullest extent allowed under applicable law. If applicable law does not allow the exclusion or disclaimer of certain implied or statutory warranties or remedies, then any such implied warranties and remedies shall be limited in duration and scope to the minimum allowed under applicable law.

Your **sole and exclusive remedy** is the repair or replacement, of parts and components covered by this warranty, or up to a \$50 credit per filter, at the Company's sole option, and does not include incidental or consequential damages that are specifically **DISCLAIMED** and **EXCLUDED** from warranty coverage.

The **Company is your contact for reporting warranty claims and receiving warranty service.** Any claim must be received by Company within the warranty period to obtain warranty service. The purchaser is responsible for the expense associated with transporting the HydrAid™ filters to and from International Aid, if required. Any legal action alleging a breach of warranty must be brought within one (1) year from the date the alleged breach first occurred.

This document contains the entire warranty given by the Company. The Company does not authorize any person or persons to change the terms of this express limited warranty, which is the Company's only warranty. The Company reserves the right to change or improve the design or manufacture of HydrAid™ filter without obligation to modify any products previously manufactured.
